<u>Session Title / Description</u>	<u>Presenters/ Institutions</u>	<u>Time / Room</u>	<u>Cross List</u>
<p><b>Can you really <i>Schedule Smarter</i> ?</b> With Infosilem EnCampus you can! Address space crunch challenges, balance course distribution, meet student demand and manage Conferences and Events efficiently with our integrated campus-wide scheduling solution. Go beyond the analysis of data to actually generate an optimal course schedule that is perfectly aligned to your student demand while meeting faculty and space requirements. Manage daily changes to your academic schedule interactively as well as Conferences and Events dynamically.</p>	<p>Pierre Guay <i>Infosilem</i></p>	<p>09:00 - 10:00 Grande III</p>	<p>Student</p>
<p><b>Managing Student Housing</b> Join us for a discussion and demonstration on how to efficiently manage your student housing operations, provide on-line housing services for your students and how to have this information seamlessly interface with Banner.</p>	<p>Charles Boone <i>Adirondack</i></p>	<p>10:10 - 11:00 Majestic III</p>	
<p><b>Using OCR for AnyDoc™ and AXIOM to enter Recruit and Admission Data in Banner</b> Anywhere within your college or university where you are entering data into Banner from a standardized form or loading data from a text file, you can implement OCR for AnyDoc™ and Axiom to significantly reduce the data entry process. The data capture (OCR/ICR) technology with validation against Banner tables can be implemented in any department in conjunction with an imaging system or as a stand alone data capture solution. Axiom can be utilized for additional validation prior to uploading the information to Banner and sending the image to Banner XtenderSolutions. This session will demonstrate how Villanova University Admission uses OCR for AnyDoc™ to extract data from inquiry forms and Axiom to load various sources of data (such as test scores, web applications from self-service, and student search sources) to Banner.</p>	<p>Melissa Gerding Sarah Lodise <i>Villanova University</i></p> <p>Lisa Detwiler <i>SSD Technology Partners</i></p>	<p>10:10 - 11:00 Majestic I</p>	<p>Admissions Student</p>
<p><b>Evisions Argos</b> Evisions Argos, an enterprise reporting solution created specifically for Universities and Colleges, solves all of your reporting needs for all of your users. Argos, offers solutions for Ad-hoc reporting, production reporting, dashboards and data cubes. Argos was designed so every user type can get quick access to the information they need and pull it out in any format they want. Argos has the features you need in a user-friendly tool. Come see how easy reporting can be!</p>	<p>Mike Boote <i>Evisions</i></p>	<p>10:10 - 11:00 Royale II</p>	<p>Reporting and BI</p>

<u>Session Title / Description</u>	<u>Presenters/ Institutions</u>	<u>Time / Room</u>	<u>Cross List</u>
<b>Departmental eCommerce – A matter of minutes!</b> Building secure websites capable of accepting payments from anywhere at anytime is now possible in a matter of minutes (without having to utilize valuable IT resources)! Do you have departments planning conferences and telling you at the last minute? Or departments planning to sell their products online and now are requesting merchant accounts from you? This session will discuss an easy-to-use tool for creating secure web storefronts that will help manage and control commerce across campus.	Brian Klem Mike Sullivan <i>CASHNet</i>	11:10 - 12:00 Pennsylvania	Accounts Receivable
<b>Evisions Form Fusion</b> Form Fusion is your solution for Banner document enhancement and output management. FormFusion allows you to control the design and delivery of your output and eliminate costly pre-printed forms. Not only can you rearrange data, change the layout, formatting and fonts, but you can also add information not included in Baseline. FormFusion then allows you to print, automatically email, archive, send your output to a third party imaging solution or directly through Banner Web. Come see why over 800 universities and colleges use FormFusion to enhance their Banner output.	Mike Boote <i>Evisions</i>	1:10 - 2:00 Pennsylvania	Student Finance
<b>SunGard HE Banner Web Services for eCommerce - the possibilities are endless!</b> If you want to learn what is new for Banner eCommerce, don't miss this presentation! In June 2007, Official Payments was awarded a contract with Millersville University to provide eCommerce services. In July 2007, they accepted their first payment. Today, Millersville accepts payment for Tuition and Fees, Alumni, Admission Deposits, Campus Card Load and Housing Deposits, all integrated in real time via Banner Web Services for a 100% PCI compliant solution. Users can also take advantage of Real-Time Parent Pay, event registration, payment plans and more.	Tom Gavin Imre Gajari <i>Official Payments, Millersville University</i>	1:10 - 2:00 Royale III	Accounts Receivable Finance Advancement Student

<u>Session Title / Description</u>	<u>Presenters/ Institutions</u>	<u>Time / Room</u>	<u>Cross List</u>
<p><b>Managing the Perfect Storm (eCommerce)</b></p> <p>Is your institution struggling to maintain control of eCommerce across campus? When an institution is spread across multiple locations, or has numerous departments it can be challenging to ensure standard secure payment practices while at the same time keeping costs down and providing customer service. Learn how your institution will benefit from centralized commerce and standard policies and payment processes across campus. This presentation focuses on: The challenges of commerce in Higher Education, Best Practices, Reporting and Managing compliance with PCI Data Security, GLBA and NACHA regulations.</p>	Joe Egan <i>Nelnet</i>	9:00 – 10:00 Majestic II	
<p><b>Banner Workflow Solution Overview</b></p> <p>If you are considering or curious about the potential of Banner Workflow or business process management on campus, you will want to attend this session. We will cover the basics of the technology and uses within higher education. This session will be beneficial to any functional or technical staff member who wants a primer on how best to apply Banner Workflow on campus.</p>	Josh Aversa <i>SunGard HE</i>	9:00 – 10:00 Majestic III	Accounts Receivable Admissions Advancement Data Warehousing Finance Financial Aid Humanr Resources Luminis Reporting and BI Student Technical
<p><b>Address Verification in Banner with CLEAN_Address</b></p> <p>Real-time address verification, telephone, name, and email checking are integral parts of improving data quality and communication. With CLEAN_Address, address verification is now an easy, low-cost solution for institutions using Banner. Attendees will learn the basics of address verification and the simple process to support real-time, seamless integration in Banner Forms (INB), Web self-service applications (SSB), and batch processing. CLEAN_Address supports address verification, telephone checking, name standardization, and email address validation within all components of Banner - INB Forms, Web SSB, and Batch processing.</p>	Kevin Runner <i>Runner Technologies</i>	09:00 - 10:00 Regency	
<p><b>Grid Computing with Real Application Clusters - Flexibility to meet changing business needs</b></p> <p>Please join us for a discussion on how Oracle RAC enables flexibility and cost containment for your Banner environments.</p>	Bob Zeolla <i>Oracle Rep</i>	09:00 - 10:00 Royale I	Technical
