Single Sign-on Manager Installation	1.2 hours
Application Navigator Installation	25 minutes
Administrative Pages Deployment	25 minutes

### Courses focused on Modifications

For clients with modifications, the following courses are highly recommended. These courses highlight the products in the **Extensibility Toolkit** to transform net new and baseline modified forms to Banner 9.

Technical Banner 9 Upgrade Courses	Learning Duration
Extensibility Toolkit Overview	10 minutes
Page Builder Installation and Implementation	1.5 hours
Theme Editor Implementation	45 minutes
Configure Page Components Implementation	50 minutes
Supplemental Data Engine Implementation	30 minutes
Git Infrastructure Implementation	1.2 hours
Extend Banner Administrative Pages	2 hours

\*Estimated learning duration includes learning activities; it does not include actual programming/coding and software compiling.

The introduction of these new online courses offers additional choice for our customers accomplishing the important upgrade to Banner 9. Customers require different levels of support in the upgrade process and your Ellucian team is ready to offer what you need.

Customers who need some guidance but plan to do-it-yourself will benefit from these self-paced online courses. For those customers that desire, more in-depth instruction and hands on practice and still plan to do-it-yourself, we offer instructor-led courses. You can check for available courses in our [Training Catalog](#). Other customers have a need to engage with Ellucian for comprehensive upgrade services provided by Ellucian experts. There are services packages available right-sized to meet these needs as well.

**Whether it's one offering or a mix of all that is best for you, we are here to support your successful upgrade to Banner 9!**
